

FOOD AND BEVERAGE GAS EQUIPMENT

GAS SOURCES

APPLICATIONS

FOOD & BEVERAGE GAS EQUIPMENT

TYPE	MAX. INLET PRESSURE (bar)	MAX. OUTLET PRESSURE (bar)	FLOW (Nm ³ /h)	SPECIFICATIONS	
T2f / T3f (HD)	200 / 300	11 / 18 / 25 / 50	44 / 80 / 120 / 200	Automatic change-over unit	
CENTREOLE	200 / 300	17	150	High flow automatic change-over unit	
PMD-f (HD)	200 / 300	11 / 18 / 25 / 50	44 / 80 / 120 / 200	Single regulating station (wall mounted)	
EOLE	200 / 300	40	200	High flow regulator	
HP HOSE	200 / 300	200 / 300	-	HP flexible hoses with stainless steel liner and braids - Connection to request	
HP PIGTAIL	200	200	-	Stainless steel tubing Connection to request	
HEATER*	200 / 300	200 / 300	-	Electric heaters 500W or 1000W	
HP STAND	200 / 300	200 / 300	-	Deported bundle collector valve (self-standing)	
SAM	200 / 300	17	33	Cylinder regulator - 1 stage	
CL-HP	200	17	28	Cylinder regulator - 1 stage	
P RANGE	300	200	650	Very high flow regulator Pipeline and cylinder	
FDL-f	25	7	50	Point of use	
D300F	50	40	100	Dual line regulating assembly	
BP100 (HD)	50	40	100	Low pressure line regulator	
BP300 (HD)	50	40	300	Low pressure line regulator	
BP500	50	12	500	Low pressure line regulator	
BP800	50	12	800	Low pressure line regulator	
BP1500	50	10	2200	Low pressure line regulator high flow	
TBP	4	0,02 - 0,1	27	Very low pressure line regulator	
Snowpulle	60	Atmospheric	-	Dry ice maker and diffusor	

GAS REGULATION EQUIPMENT BENEFITS

- Highest quality standards since 1925.
- Research, Development and production in Paris, France.
- One of the best technical vs. cost designs on the market.
- Longtime partner of all major gas producers in the world.
- Total low cost maintenance policy.
- Over 100 years experience in gas equipment.

INTERNATIONAL STANDARD CONNECTION

CAHOUET can supply equipment with your own country standard (CGA - DIN - AFNOR - UNI - MIE BS - ABNT - IRAM - NEN - JIS - IS ...).

Do not hesitate to contact us :
