

HYDROGEN EQUIPMENT

HYDROGEN

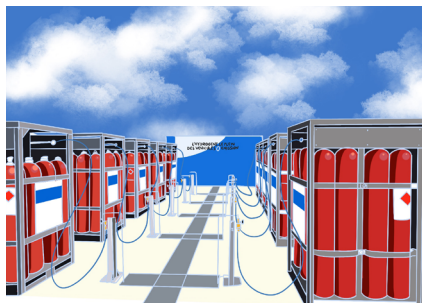

FUELLING STATION

As critical partner of industrial gas companies for nearly 100 years, **CAHOUET**, a French manufacturer, offers a complete range of hydrogen regulation equipment for **industrial applications** (chemical, petrochemical and metallurgical) up to **200 and 300 bar**.

CAHOUET is now extending his range by offering strategic technological building bricks for the use of hydrogen as an energy source (**mobility, electricity**) at pressures up to 700 bar.
